

THE NABORLY NEWS

TERI'S THOUGHTS

BY TERI MEDINA - EXECUTIVE DIRECTOR

As we complete this first edition of our newsletter, I'm reminded of how far we have come in **sharing the gospel, providing quality early childhood education for our little students and facilitating life-change for the parents** that participate in the Nabor House Community program.

Just three years ago, we were re-creating a program to fulfill the vision of our founder Jerry Stoller.

Jerry had a heart for the challenges facing single mothers and desired to provide a "hand up" in providing them with a quality early education center to assist them while they pursued and accomplished education and employment opportunities.

The Lord has been so good to us at Nabor House Community, bringing us volunteers, mentors and donors. With your support we have helped so many!

Doctor, doctor, give me the Naborly News...

Our very own Miss Rhonda is working toward her TSR Certification. Thanks to her extraordinary creativity and a donation from Sharon DeLorenzo, our students learned all about the human body! AMAZING!! To see more of our future surgeons, doctors and nurses in action, performing a transplant surgery, visit us on Facebook.

NHC UPCOMING EVENTS

FALL FESTIVAL

THE FALL FESTIVAL is coming November 6th! Our staff works overtime to put on a free, fun day including inflatables, games, prizes, food, face painting and more!! AND the entire Spring Branch community is invited.

We had over 200 people attend the 2019 festival (2020 was cancelled because of Covid), and we want 2021 to be even bigger and better!

To volunteer send an email to Sammie at:
fc_asstdirector@naborhousecommunity.org

To sponsor a booth:

"How can I help?"

GREAT QUESTION!
 We need items donated (donations keep the event free), businesses to sponsor the event, AND

CECELIA'S STORY

BY CECELIA MALDONADO

Caleb (L) - Cecelia (C) - Aiden (R)

Purpose is the perfect word to describe my life, everything that has happened in my life, every single person that God has put in my life has a purpose, every minor, big problem has had a purpose to grow me into the person that I am now...
